A pleasant prelude was the "Columbus Day" celebration Wednesday afternoon by thousands of school children throughout the city.

HANNAHAN, the known prize "Molly Wooten," "Lost," "Found," and similar notions out of a business character, free of charge. The only thing we require is that the song be sung in before 9 o'clock on day of publication.

THE auditorium, the greatest assembly hall of the continent, was ablaze Wednesday night with myriads of electric lights. Lovely women were there whose presence would create a furor at a drawing-room in Buckingham Palace, presented by the venerable Victoria Regina; women in tulle not put to shame by the greatest creations of Worth.

The assemblage was essentially private affair, so far as the official programme of dedication work was concerned, it had no recognition beyond the formal induction of the committee on auspices of the World's Columbian exposition, an endorsement that carried with it neither financial liability nor responsibility.

HUBBARD LEXINGTON

FIRST YEAR.

MAYSVILLE, KY., THURSDAY, OCTOBER 20, 1892.

ONE CENT.

HE BROKE THE SPUR.
He sat within the parlor bright,
When day had closed its eyes;
The golden moments in their flight
Unheeded passed by him.

It was an hour of honored bliss,
To which there was no strife;
And in a whirl of happiness
I asked the maid to sit.

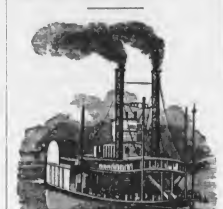

I thought to hear a sweet song
That butters me at morn;
Or true love's tender melody,
From ardent passion born.

She fixed her eyes, she smoothed a hair
And then began to play;
I held my breath—the maiden sang,
"The rose-bloom is gay."

Don't fail to attend the Columbus Day exercises at Washington Opera-house to-morrow morning. The program as published several days ago will prove an interesting one. Ten o'clock is the hour set for the celebration to begin.

FRANK ARMSTRONG MANNEN, who has just received the Democratic nomination for County Treasurer of Douglas county, Wis., is a Maysville boy. He is bright, honest and energetic. He is a grandson of John Mott, and our best citizen feel sure he will redress credit on the name of his honored ancestors.

EDWARD NORTON, a Harrison county farmer, fell in the hands of the sharks who infest the Fifth street horse market at Cincinnati, and they beat him out of a \$100 race. TO-NIGHT at Washington Opera-house their theater-goers are to have "Ole Olou" the latest success in the farce comedy line. It is an absolute novelty; nothing like it was ever produced before. The great success with which it has met has been fairly on its merits. The Swedish character has something in it wonderfully interesting to the American people, full of interest, quite as many possibilities. If not more, than the conventional German, Irish or Yankee. The company is composed of well known actors, who introduce, incidental to the play, a number of topical songs and clever character dances. Prices 35, 50 and 75 cents.

DOUBTLESS no lady star who has faced the footlights in years has received so much deserved praise as Miss Sadie Scanlan, who is to appear in her new picturesque Irish drama, "Nora Ma chree," to-morrow night. Those who have seen her set praise her talent, and those who have been fortunate enough to meet the lady personally cannot say too much for her. In personal appearance Miss Scanlan charms one at a glance. A graceful, polite figure, an expressive face lighted by a brilliant smile, a pair of roguish eyes, a wealth of natural blonde hair, a natural and well modulated voice, are nature's gifts to the young lady.

COLUMBUS DAY.

A Parade of the School Children. Added to the Features of the Celebration.

In addition to the exercises the Opera-house to-morrow morning, it has been decided to have a parade in which the pupils of all the public schools in the city will participate. Hauck's Band has been engaged and the parade will be one of the most remarkable events ever seen on our streets. There are over 700 children in the schools and every one of them can be depended upon to be in line.

The pupils will assemble on Fourth street in front of the High School Building. They will be informed at their respective schools by the teachers at what hour they will be wanted.

The procession will be formed in the following order: High School and Intermediate School, then Districts Nos. 1, 2, 3 and 4. The whole to be headed by the band. They will march down the East side of Market to Third, thence to the West side of Market; thence down same to North side of Second; thence down Second to Opera-house.

No one will be allowed in the Opera-house until all of the teachers and pupils have been seated. The exercises will commence at 10:30 o'clock instead of 10 as heretofore announced.

There will also be a school flag raising in honor of Columbus at District No. 3 in the morning at 9:30 o'clock. The public is cordially invited.

A Cholera Scare.

A reported outbreak of cholera at Helmetta, N. J., created much excitement in that vicinity. Investigation showed that the disease was not cholera but a violent dysentery, which is almost as severe and dangerous as cholera. Mr. Walter Willard, a prominent merchant of Jamesburg, two miles from Helmetta, says Chamberlain's Colic, Cholera and Diarrhoea Remedy has given great satisfaction. It is certainly one of the best things made. For sale by Power & Reynolds, Druggists.

Effects of "Fias."

General Horace Porter is too good a soldier not to enjoy a good time. One of his chief amusements used to be the initiation of the uninitiated. In his large circle of country cousins and country acquaintances he found abundant opportunity to gratify this taste. They were forever lighting down on him and with all the zest of their rustic nature wanting to be shown the elephant. The task was a labor of love to the General. One day a lady acquaintance of his from Kentucky appeared. The General proceeded to make it merry for his leniently friend. He initiated him into the joys of champagne, and the wine had its usual effect. The countryman's beard got badly tangled before the evening fell. The General suggested a theater visit. He of the whiskers readily assented. He had never been inside of a theater in his life and he wanted to go to one where there were lights. He had heard of lights, at any rate, and the wonders thereof.

"Well," said the General, "let's go down to Niblo's and see 'Excelsior.' (It was running there at that time.) 'There are plenty of lights in that, but it's a pantomime, you know.' 'I don't keep a darn what it is, if there be some gals with lights on 'em!'

So they went to the theater and several seats about in the middle of the orchestra. The grand spectacle laid before the General and his friend suggested a theater visit. He of the whiskers readily assented. He had never been inside of a theater in his life and he wanted to go to one where there were lights. He had heard of lights, at any rate, and the wonders thereof.

The gentleman from Kentucky was beginning to look more and more bewildered as the show progressed. An expression of amazement, of doubt and then of despair, came over his giant features as the artists portrayed in telling action the story of civilization. Then he rose from his seat and started for the door. The General called him back.

"Here, where are you going?" he asked, in a whisper.

"I'm going home."

"What for?"

"Bed's my place. I'm dumber than I thought I was. That show was lighted up for me to watch for me. Do you know I ain't heard a darned word those folks has said? I reckon I'm pretty drunk."

THE STEEL HIGHWAYS THAT LEAD TO AND FROM MAYSVILLE.

Items of the Rail that Have Struck Up and Plotted Into The Ledger's Columns by a Thoroughly Competent Engineer.

Train No. 9 on the C. and O. has spasms of tardiness. It rolled in yesterday over an hour late.

The excursion to Cincinnati on the C. and O. this afternoon will probably pick up a good many at this point.

The strike of the engineers, conductors and trainmen on the Denver and Rio Grande has been declared off.

On behalf of the city schools we wish to extend our sincere thanks to the many citizens of Maysville who so generously contributed to the fund to hire the Maysville Band for our school parade on Columbus Day. Respectfully,

When properly treated as soon as the first symptoms appear, cholera can be cured. The patient should go immediately to bed and remain as quiet as possible. Send for a physician, but while awaiting his arrival take Chamberlain's Colic, Cholera and Diarrhoea Remedy in double doses after each operation of the bowels more than natural. If there is severe pain or cramps, take it in double doses every fifteen minutes until relieved. This Remedy has been used with great success in every epidemic of dysentery that we have known of, and is a cure in almost every case. Every family should have a 50 cent bottle at hand ready for instant use. After the disease is under control castor oil must be taken to cleanse the system. No other physic or substitute will do in place of castor oil. For sale by Power & Reynolds, Druggists.

THE BEAR.

Report of Capt. Healy to the Secretary of the Treasury.

His Ship Evidently Cut Out for Good Work Along Alaska.

The Season Has Been Particularly Open—The Schooner May D. Hume Made an Extraordinary Catch of Whale—The Bear Will Be Guard Duty.

WASHINGTON, Oct. 20.—Capt. M. A. Healy, U. S. R. M., in a long report to the Secretary of the Treasury, dated Unalakleet, September 28, of the cruise of the steamer Bear in north Arctic waters, says that the station promulgated the order projected at the Department and succeeded in introducing reindeer in Unalakleet.

In giving a detailed account of the cruise of the revenue steamer Bear, Capt. Healy says that the annual visit of the vessel to Northern Alaska has become the time for the adjustment of the differences of all kinds, the starting of new enterprises and the correction of various abuses.

Capt. Healy says the season has been particularly open, and nearly the entire whaling fleet and gone east of Point Barrow when the Bear sailed south. The schooner May D. Hume made an extraordinary catch of thirty-nine whales during the spring. The establishment of the refuge station at Point Barrow, which is the coast guard of provisions, has encouraged whalers to go farther north and into more profitable places in pursuit of their trade, with the knowledge that in case of accident they will not be left to the mercy of an arctic winter without food or shelter. Capt. Healy says that his efforts to prevent the introduction of spirituous liquors were unusually successful despite the great extent of territory to be patrolled, and is of the opinion that the law has driven the liquor traffic out of the country. The Bear will descend the United States steamer fleet, guarding the seal islands until December.
